myLTO®
LTFS Copy Application

IMAGINE PRODUCTS, INC ®

*Workflow experts, from aquisition to archive - we've got your back(up!)*

myLTO is a simple to use LTFS copy application for Mac users.
Create two or more LTO tapes at once using a dual drive or daisy chain single drives.
Name and define new folders for each job or add files to existing folders.

- myLTO is optimized for video files but can be used to archive any file type
- Drag and drop files and folders for easy backup
- Copy to hard disk and tape as the same time
- Format, mount & unmount in the LTO control tab
- Multiple checksum and file comparison options
- MHL reports can be created & saved with any job
- PDF reports with thumbnails and metadata are available as well as TXT and CSV
- Presets can be saved and shared for continuity
- Text, email and desktop notifications
- At-a-glance, color indicated, job status bar
- Simple and detailed naming options
